# net•work |'netwɜrk|

noun

- 1 an arrangement of intersecting horizontal and vertical lines.
  - a complex system of roads, railroads, or other transportation routes : *a network of railroads.*
- 2 a group or system of interconnected people or things : *a trade network.*
  - a group of people who exchange information, contacts, and experience for professional or social purposes : *a support network.*
  - a group of broadcasting stations that connect for the simultaneous broadcast of a program : *the introduction of a second TV network* | [as adj. ] *network television.*
  - a number of interconnected computers, machines, or operations : *specialized computers that manage multiple outside connections to a network* | *a local cellular phone network.*
  - a system of connected electrical conductors.

verb [ trans. ]

connect as or operate with a network : *the stock exchanges have proven to be resourceful in networking these deals.*

- link (machines, esp. computers) to operate interactively : [as adj. ] ( **networked** ) *networked workstations.*
- [ intrans. ] [often as n. ] ( **networking** ) interact with other people to exchange information and develop contacts, esp. to further one's career : *the skills of networking, bargaining, and negotiation.*

## Thesaurus deliciousness:

## network

noun

- 1 *a network of arteries* WEB, lattice, net, matrix, mesh, crisscross, grid, reticulum, reticulation; Anatomy plexus.
- 2 *a network of lanes* MAZE, labyrinth, warren, tangle.
- 3 *a network of friends* SYSTEM, complex, nexus, web, webwork.

# Key Observation:

- ▶ Many **complex systems** can be viewed as **complex networks** of physical or abstract interactions.
- ▶ Opens door to mathematical and numerical analysis.
- ▶ Dominant approach of last decade of a theoretical-physics/stat-mechanics flavor.
- ▶ Mindboggling amount of work published on complex networks since 1998...
- ▶ ... largely due to your typical theoretical physicist:

Overview of  
Complex  
Networks

- ▶ But surely **networks aren't new...**
- ▶ Graph theory is well established...
- ▶ Study of social networks started in the 1930's...
- ▶ So why all this 'new' research on networks?
- ▶ **Answer:** Oodles of Easily Accessible Data.
- ▶ We can now inform (alas) our theories with a much more measurable reality.\*
- ▶ A worthy goal: establish mechanistic explanations.

- ▶ Graph theory is well established...
- ▶ Study of social networks started in the 1930's...
- ▶ So why all this 'new' research on networks?
- ▶ **Answer:** Oodles of Easily Accessible Data.
- ▶ We can now inform (alas) our theories with a much more measurable reality.\*
- ▶ A worthy goal: establish **mechanistic explanations**.

The Structure of Romantic and Sexual Relations at "Jefferson High School"

Each circle represents a student and lines connecting students represent romantic relations occurring within the 6 months preceding the interview. Numbers under the figure count the number of times that pattern was observed (i.e. we found 63 pairs unconnected to anyone else).

(Bearman *et al.*, 2004)
